

I believe that the use of cell phones on a plane in flight not only is a safety risk for the crew and fellow passengers. Sitting by someone who chooses to talk on his/her phone during the flight is not only disturbing and adding to air traffic but most people feel the need to shout to be heard, imagine the conflict between passengers! Most Passengers do not listen to the Flight Attendant as is, then jabbering away on their phone during a safety briefing or heaven forbid a real emergency is unthinkable. Please do not allow this to happen! I for one do not want to sit next to either a businessman who thinks the world can not do without him for an hour or so or even a chatty teenager with all the drama this entails. Again I hope you think of yourselves sitting next to the person shouting to be heard when all you would like to do is relax the best you can on public transportation!
